ENTIREPRISE POS

INTRODUCTION TO LYT-SOFT

Welcome to Lyt-Soft, the revolutionary AI-powered point of sale software from Lyt-Soft Technology. Lyt-Soft is more than just a software, it's a powerful ally in the fight to take control of your business. It's a virtual manager, working tirelessly for you 24/7 to simplify and automate your daily operations.

With Lyt-Soft, you will have access to real-time insights and alerts, allowing you to detect any irregularities, prevent loss and promote growth. This means that you can control your business from anywhere, at any time. Whether you're a small business owner or manage a large retail chain, Lyt-Soft is the perfect solution for streamlining your operations and increasing your profitability.

The software is easy to use, it's intuitive interface will help you to navigate through the different features and options. It's designed to be flexible, customizable to your needs and can adapt to the size of your business.

We understand how important it is to have a software that you can rely on, that's why our dedicated team of experts is always working to improve and evolve the software, to ensure that it meets the needs of our clients.

Lyt-Soft is just one of the many products that Lyt-Soft Technology is developing to help the retailers to achieve their goals, and to make their lives easier.

Lyt-Soft is developed in Zambia and specifically tailored to the needs of Zambian businesses. This means that it is fully equipped to handle the unique challenges and regulations faced by companies operating in the Zambian market. With a deep understanding of the local market and the needs of businesses operating within it, Lyt-Soft is able to provide solutions that are tailored to the specific needs of Zambian companies. Whether it's inventory management, compliance, or payment integration, our software has been designed to help Zambian businesses overcome the obstacles they face and achieve success in the local market.

Join us in our mission to revolutionize the retail industry and experience the future of retail management with Lyt-Soft Tech. Try Lyt-Soft today and see the difference it can make for your business.

LYT-SOFT POS

MULTIPLE USES AND INDUSTRIES

Yes, Lyt-Soft is a versatile software solution that caters to a wide range of retail businesses, including supermarkets, butcheries, restaurants, takeaways, boutiques, bars and more. The software is designed to handle various types of inventory management, sales, and customer management, making it a perfect solution for businesses of all sizes and types.

For supermarkets, the software provides real-time visibility into inventory levels, sales, and trends, enabling you to make informed decisions about purchasing, promotions and pricing. For butcheries, the software allows you to track and manage your slaughtering stock, production of sausages, and customer management. For restaurants and takeaways, the software allows you to manage your inventory, track your sales, and manage your customers' orders.

Our software is highly customizable and can be tailored to fit your specific business needs. Whether you run a small boutique or a large retail chain, Lyt-Soft can help you streamline your operations, increase your efficiency and improve your bottom line.

WHY CHOOSE LYTSOFT

There are several factors that make Lyt-Soft different from other point of sale software on the market:

1. AI-Powered: Lyt-Soft uses advanced AI algorithms to provide real-time insights and alerts, which allows retailers to detect any irregularities, prevent loss, and promote growth.

2. Automation: Lyt-Soft simplifies and automates many of the daily operations of a retail business, allowing retailers to focus on what truly matters, such as serving customers and building their brand.

3. Remote Control: Lyt-Soft allows retailers to control their business from anywhere, at any time.

4. Data-Driven Decisions: Lyt-Soft enables retailers to make smarter, data-driven decisions that drive growth and increase their bottom line.

5. Scalable: Lyt-Soft is suitable for small and large retail businesses, it can adapt to the need of the business.

6. Dedicated Team: Lyt-Soft Technology's team of experts has a wealth of experience in retail management and technology development, which ensures that the software is always evolving and meeting the needs of their clients.

7. Customizable: Lyt-Soft is flexible and customizable to your needs, which makes it easy to adapt to the unique requirements of your business.

8. All-in-one solution: Lyt-Soft is an all-in-one solution that covers all aspects of retail management, which helps to streamline the workflows and optimize the performance.

9. Speed and reliability: Our software is designed to be fast and reliable, so it won't slow down your business. This means you can work more efficiently and increase your productivity.

10. Offline capabilities: Our software has the ability to work offline, which is essential for businesses operating in areas with unreliable internet connectivity. This eliminates the need to worry about network outages or slow internet speeds.

11. Developed in Zambia: Lyt-Soft is developed in Zambia for the Zambian market, making it unique in understanding the Zambian need and developing solutions to challenges faced by Zambian companies.

12. Powerful Partners: Our software is partnered with ZRA, FNB, Kazang and 543 for payment integration. This means that you can easily accept payments from mobile wallets from MTN, Zamtel, and Airtel, this will increase your sales and make your business more convenient for your customers.

13. Inventory management across multiple branches: Our software allows you to control inventory from the warehouse and automate stock re-orders to branches, thus allowing you to maintain ideal stock levels.

14. Anti-theft features: Our software has several anti-theft features like monitoring void table transfers and real-time alerts on suspicious activities to secure your business.

15. Compliance: It makes it easy for you to stay compliant across all of your branches and keeps you up-to-date with the latest tax regulations and compliance requirements.

16. User-friendly and easy to use: Our software is user-friendly and easy to use, so you don't need any technical expertise to get started.

LYT-SOFT POS

PARTNERS

Yes, Lyt-Soft is proud to be partnered with ZRA, FNB, Kazang and 543, some of the leading companies in their respective fields. These partnerships allow us to offer our customers a wide range of additional services and features that enhance the functionality of our software. Our partnership with ZRA (Zambia Revenue Authority) allows us to integrate our software with their systems, enabling businesses to easily file their taxes and comply with government regulations. Our partnership with FNB (First National Bank) allows us to offer our customers secure and convenient payment processing solutions. Our partnership with Kazang and 543 provide our customers with the ability to sell prepaid vouchers and mobile airtime directly from our software.

Further our partnerships with Kazang and 543 allow us to offer our customers the ability to integrate mobile wallet payments directly into the Lyt-Soft software. This means that customers can make payments using their mobile wallets from major mobile service providers such as MTN, Zamtel, and Airtel.

This feature not only allows for more convenient and secure payment processing for our customers, but also provides them with more options for accepting payments from their customers. With mobile wallet integration, businesses can expand their customer base by accepting payments from customers who may not have access to traditional payment methods such as credit cards or bank transfers.

This feature is particularly useful for businesses operating in areas with low banking penetration or for businesses that have a large customer base that prefer using mobile wallets. This feature allows businesses to reach more customers and increase their sales.

These partnerships allow us to offer our customers a complete solution for their retail business needs. They also demonstrate our commitment to providing our customers with the best service and solutions available in the market.

LYT-SOFT PARTNERS AND INTEGRATIONS
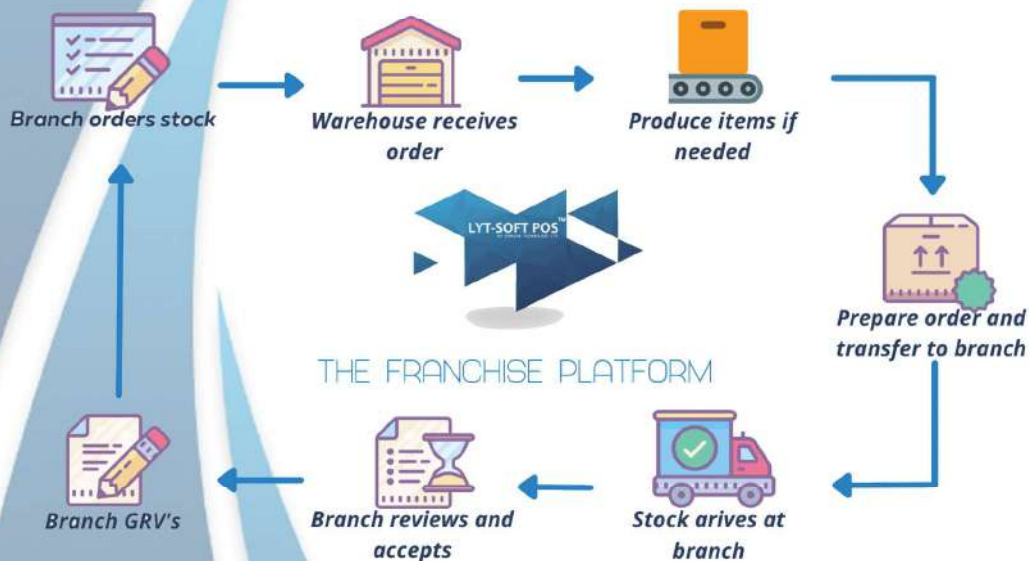

FRANCHISE

At Chrilan Technology, we understand the unique challenges that come with managing a franchise. One of the biggest challenges is ensuring that each branch is operating at its full potential, and that each branch is contributing to the growth of the franchise as a whole.

With Lyt-Soft POS, we provide a centralized system that allows you to manage your inventory and sales across multiple branches and franchise locations. This means that you can control your franchise inventory from the warehouse, automate stock re-orders to branches and maintain ideal stock levels. This allows you to have real-time insights into your business and make data-driven decisions that drive growth and increase your bottom line.

Our software also offers advanced recipe management, complete inventory and costing control, and it has several anti-theft features that keep your business protected. This means that you can ensure that your recipes are consistent across all branches, and that your inventory is managed effectively.

Additionally, our software is user-friendly and easy to use, it allows you to control your business from anywhere and at any time, this means that you can keep an eye on your business even when you're not there, you can easily access real-time sales data, inventory levels, and other critical information, and make decisions that will drive growth and profitability.

As Chrilan is partnered with ZRA, FNB, Kazang, 543 it allows us to make it easy for you to stay compliant across all of your branches. Our software is designed to keep you up-to-date with the latest tax regulations and compliance requirements, so you can be confident that your business is operating within the law at all times. This eliminates the need for manual compliance checks, saving you time and reducing the risk of errors.

Moreover, with our integrated payment system, it is easy to trace payments and monitor transactions across all of your branches. This means that you can keep track of your cash flow and identify any discrepancies quickly, which helps you to prevent losses and improve your bottom line. It also makes it easy to reconcile your accounts, which is critical for keeping accurate financial records and preparing your tax returns.

In summary, with Chrilan Technology, you can easily manage your inventory, automate stock re-orders, stay compliant, and trace payments across all of your branches. This makes it easier to scale your franchise, increase your sales, and improve your bottom line. With our software, you'll have everything you need to take your franchise to the next level.

Our software is your one-stop-shop for managing growth and scaling your franchise to success. Try Chrilan Technology today and see the difference it can make for your business. With the help of our partners, you will be able to unlock the

In conclusion, with Lyt-Soft Technology from Lyt-Soft, you'll have the tools you need to manage your franchise with ease and take your business to new heights. We are the solution for managing growth and scaling your franchise to success.

RESTAURANT

Lyt-Soft is not just any software, it's a game changer, a revolutionary tool that will take your business to new heights. With our advanced recipe management and complete inventory and costing control, you'll be able to take control of your food costs, manage your inventory and create delicious dishes that will keep your customers coming back for more.

For Restaurants and takeaways, we offer advanced recipe management and complete inventory and costing control, we provide multiple cash-up options and allow you to customize the sales flow to suit your specific needs. And let me tell you, our anti-theft features are second to none, with real-time alerts on suspicious activities, you can rest easy knowing that your business is protected.

Yes, our scale integration also includes bottle and shot management. It allows you to easily keep track of your bottle inventory and monitor your shot pouring, ensuring that you're never over or under pouring. This helps to reduce waste, increase profitability, and provide a better experience for your customers. With Lyt-Soft, you'll have complete control over your inventory, and you'll be able to manage your bottles and shots with precision and accuracy.

But that's not all, we also offer integration with mobile wallet providers such as MTN, Zamtel and Airtel, this will not only allow for more convenient and secure payment processing for your customers, but also provide them with more options for accepting payments, reaching more customers and increasing your sales.

We are here to help you to succeed, we are here to help you to grow, and we are here to help you reach new heights. With Lyt-Soft, the sky is the limit.

BUTHCHERIES

Lyt-Soft is the ultimate solution for butchery businesses, crafted with precision and passion to revolutionize the way you manage your operations. Our software is tailored to the unique needs of butchers, providing you with all the tools you need to take your business to the next level.

Imagine having complete control over your slaughtering stock, from the moment it enters your facility to the time it is packaged and sold. With real-time visibility into your inventory, you can make informed decisions about purchasing, production, and sales, ensuring that you always have the right amount of stock on hand.

But that's not all, our software allows you to optimize your production process, reduce waste, and ensure that your sausages are of the highest quality. With direct scale integration, you'll never have to worry about inaccurate prices again, and with traceability, you can comply with any food safety regulations.

We understand that customer service is key, that's why our software allows you to manage your customers and their orders, keeping track of their preferences and purchase history, so you can provide the best service possible. With real-time reports of your sales, inventory, production and customers, you can make data-driven decisions that drive growth and increase your bottom line.

MULTIPLE SCALES INTEGRATIONS

Lyt-Soft is more than just software; it's a partner in your success. With our AI-driven warnings, you'll always be one step ahead, and with our offline capabilities, network issues won't slow you down. Let us help you streamline your operations, improve your inventory management, and increase your profitability. Try Lyt-Soft today and experience the difference for yourself.
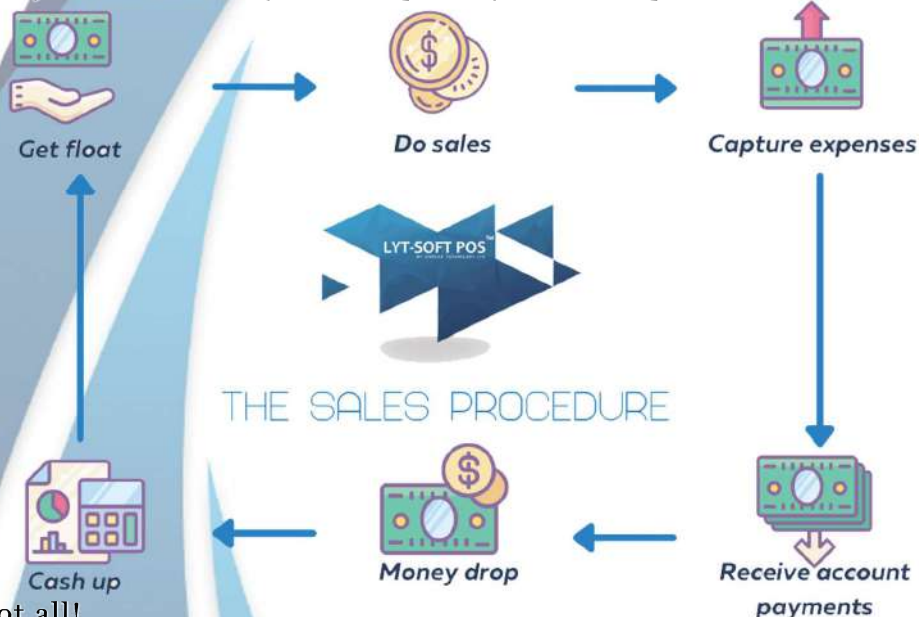

SUPERMARKET

Lyt-Soft is the ultimate solution for supermarkets! Our cutting-edge software is specifically designed to help you take control of your bakery, butchery, and retail operations. With our powerful tools, you can streamline your inventory management, increase efficiency, and boost your bottom line.

Our software is fast, reliable, and easy to use, making it the perfect choice for busy supermarkets. We understand that time is money, and that is why our software is built to be lightning fast and ultra-reliable, so you can focus on what really matters, serving your customers and growing your business.

We have the ability to work offline, this is a uniquely Zambian challenge, and with our software, you never have to worry about network interruptions again. Our software is built to work seamlessly even when the network is down, ensuring that you never miss a sale.

Our software is also equipped with advanced features such as AI-driven warnings, which will help you to identify potential issues before they become problems, and the ability to work offline, which is crucial in Zambia where network interruptions are common.

And our local real-time support team is always on hand to help you with any issues you may encounter, so you can rest easy knowing that you are in good hands.

But that's not all!
Our software also integrates with your scales and other hardware, allowing you to maintain accurate pricing and inventory levels, and our reporting features provide you with real-time insights into your sales, inventory, and customers, so you can make data-driven decisions to boost your bottom line.

So why wait? Upgrade to Lyt-Soft today and take your supermarket to the next level! With our software, you'll have everything you need to run your store like a pro.
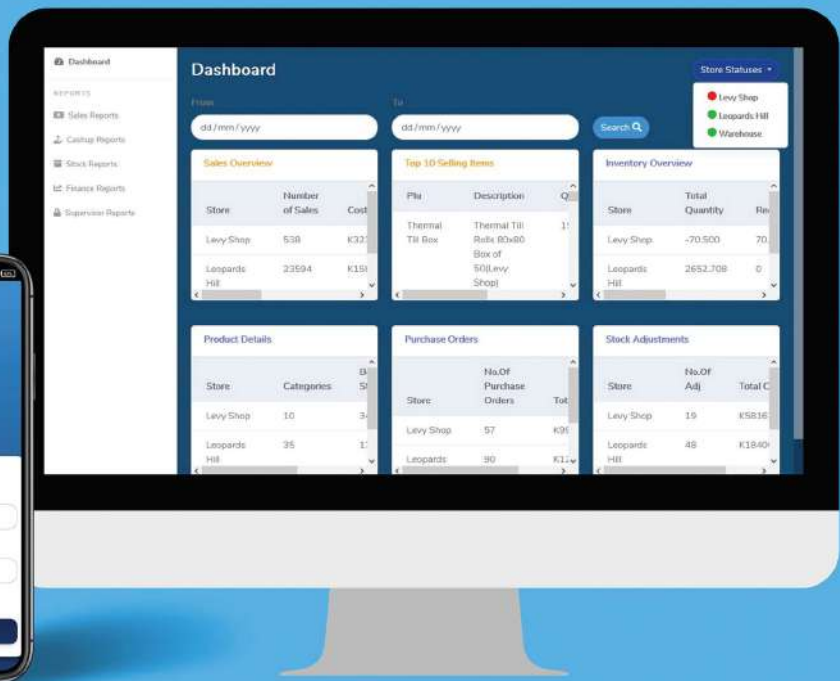

SUPERMARKET

In conclusion, Lyt-Soft POS is the ultimate solution for businesses looking to streamline their operations, improve their inventory management, and increase their profitability. Our software is designed to help businesses like yours manage their inventory, production, sales and customer in an efficient and effective way.

With features like slaughtering stock control, direct scale integration, traceability, customer management, and real-time reporting, Lyt-Soft POS provides you with all the tools you need to take your business to the next level. And with our cloud-based loyalty system, you can easily manage customer retention and collect valuable data for marketing purposes.

But that's not all. Our software is designed to be fast and reliable, so you never have to worry about slow performance or downtime. And our local, real-time support team is always available to help you with any issues that may arise.
