INTRODUCING KAZANG POS powered by lyt-soft

We're very excited to have you here! We hope you enjoy using Kazang POS.

Here are the steps to get you started:

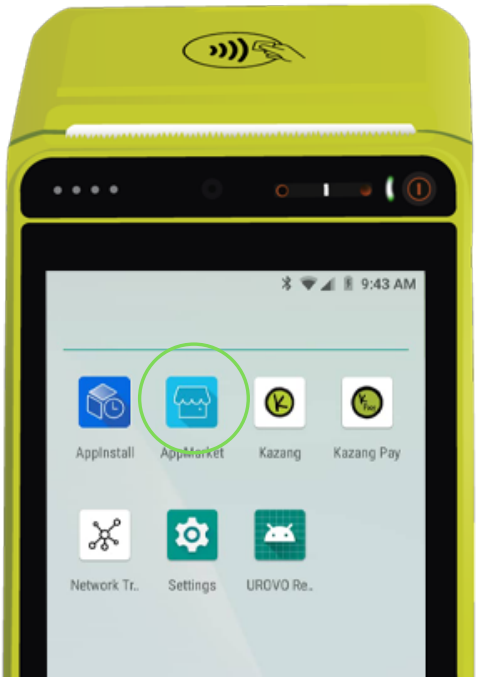

1. Exit the default Kazang App

When you power on your Kazang unit, a screen like this will appear. Close this screen by taping your home button.

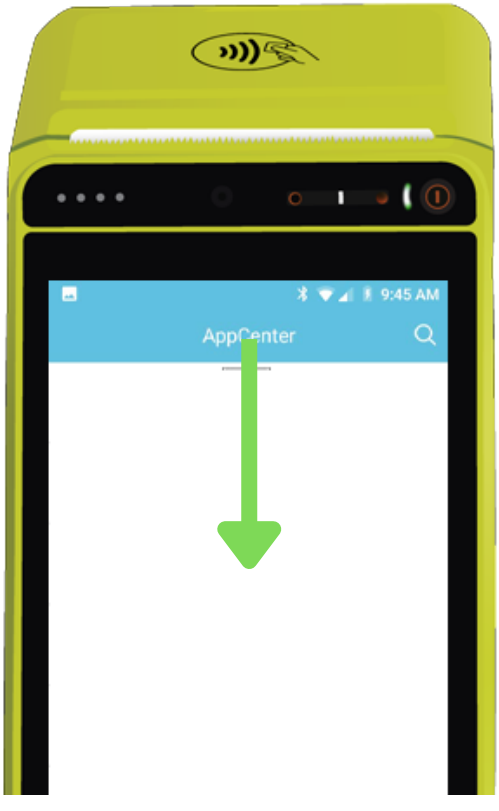

2. Open the Kazang App market.

Once you are on the home screen, open the Kazang App market by taping the icon.

If the App doesn't show up on the list, refresh your page by swiping down from the top of your screen.

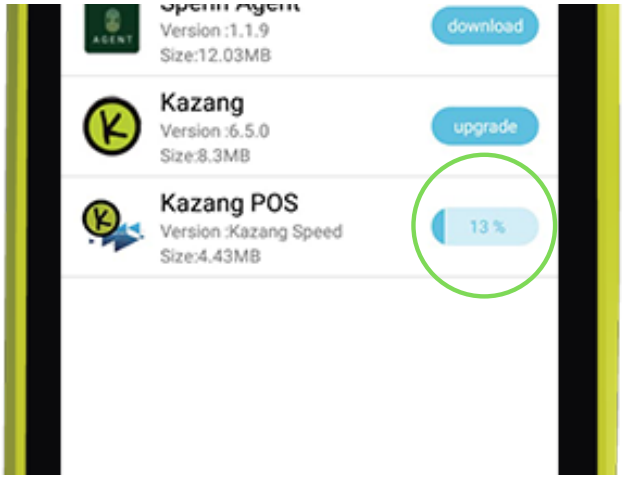

4. Download the Kazang POS App.

Look for the "Kazangng POS" App and tap the download button next to it to start the installation.

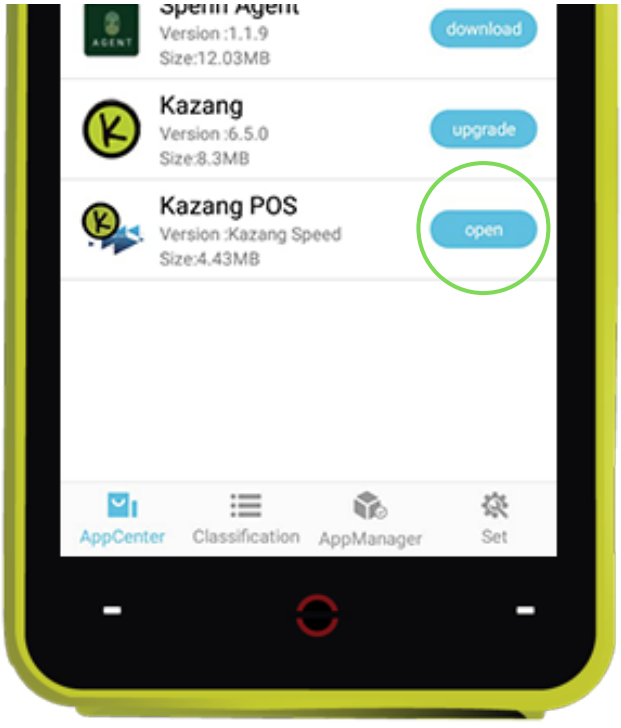

The download button will now show you the installation progress. Wait for the installation process to complete.

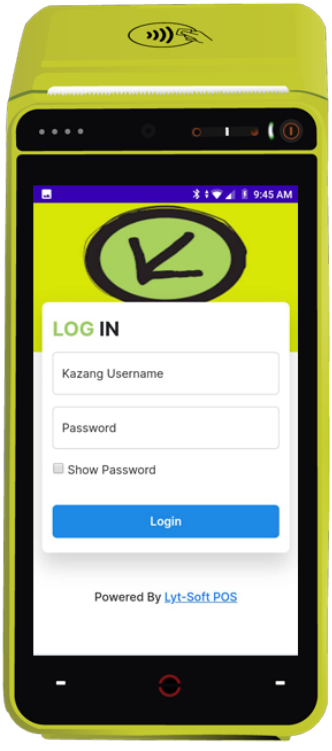

5. Open the App

Once the installation is done, launch the Kazang POS App by taping the open button next to it.

You should now see a screen that looks like this.

Thats it! Your Kazang machine is now rerady for use.
